 the name of the undersigned as a candidate  
 for the office of Treasurer of Washington  
 County, subject to the will of the Republi-  
 can county convention. H. P. BODE.

If the U. S. Weather Bureau contin-  
 ues to predict fair weather and it keeps  
 on raining the prognosticators will  
 have to change their drinks.

WEDNESDAY afternoon Judge John  
 J. Jackson, of the United States Circuit  
 Court, rendered a decision restraining  
 U. S. Marshal Thompson by a per-  
 petual injunction from removing a  
 number of deputies, holding that they  
 are under protection of the Civil Ser-  
 vice Law.

DELEGATES from every State in the  
 Union, representing building associa-  
 tions to the amount of six hundred mil-  
 lions of dollars of the savings of thirty  
 Americans are now in session at De-  
 troit, Michigan, composing a conven-  
 tion that is one of the most interesting  
 ever held in this country. Notwith-  
 standing the depressing influences  
 which have affected nearly every other  
 branch of business, it is a remarkable  
 fact that there has been a substantial  
 growth both in membership and assets  
 as the statistics fully show. The total  
 assets of the local building and loan  
 associations of the United States now  
 amount to nearly six hundred millions  
 of dollars, or in exact figures \$598,388,-  
 695, which is an increase of \$18,760,939  
 during the past year. The total num-  
 ber of local associations in the several  
 States is 4,776, while their membership  
 numbers 1,610,300, an increase of 65,717  
 members during the year.

## CAPTAIN PEABODY ON AFFAIRS.

Captain W. W. Peabody, the vice  
 president of the B. & O. S.-W., has been  
 spending a week in New York, and  
 yesterday he started for home. Of  
 course Captain Peabody is much inter-  
 ested in the outcome of the coal min-  
 ers' strike, as the B. & O. S.-W. hauls  
 a lot of coal when the miners are all  
 working. An eastern newspaper man,  
 who tackled the captain on this sub-  
 ject, was informed by him that the  
 strike would come out all right in the  
 end, and everything would be better  
 for it.

Relative to the present state of busi-  
 ness, the Captain said:

"Oh, yes. The railroad business is  
 picking up, and gives promise of being  
 remarkably good. I can see improve-  
 ments on all sides, in our business. I  
 do not think we are going to leap into  
 the best of times right away. That  
 would be impossible, as we have had  
 at least three years of the worst times  
 I think this country ever knew. But  
 capital is becoming encouraged, and  
 things will steadily grow better until  
 we will be, once again, enjoying ex-  
 ceedingly good times."

This is the view that most pushing  
 business men will take of the situa-  
 tion. True, one cannot feel the im-  
 pulse of returning business life by  
 merely judging what a certain locality  
 shows, but the whole country taken  
 into consideration, its upward impetus  
 is quite perceptible.

The news from London about the pros-  
 pect as to the international bimetallic  
 conference is extremely cheering to the  
 friends of true bimetalism. The press  
 dispatches state that the British Gov-  
 ernment has indicated a willingness to  
 co-operate with the United States and  
 France in the holding of an international  
 conference, and it is probable that it  
 will be called to meet in the United  
 States. These are two great points  
 gained. First, the holding of a confer-  
 ence under the auspices of these three  
 great nations will probably insure the  
 co-operation of practically all the lead-  
 ing nations of the earth, and, second,  
 the holding of the conference in the  
 United States will give to the people of  
 this country the detailed information  
 which is developed, in a way which will  
 be of great value.

THE nationality of the Ohio Senator-  
 ial contest will, long before the elec-  
 tion day, command the closest atten-  
 tion in Europe, for there is no in-  
 telligent observer abroad or at home  
 who does not know that the Ohio fight  
 between Hanna and McLean is the  
 Presidential fight of 1896 over again—a  
 subsequent trial of the same cause. If  
 the country is dissatisfied with the  
 McKinley administration and wants to  
 express its disapprobation with blows,  
 there is a chance for a facer in Novem-  
 ber. If the country wishes to confirm  
 the verdict of '96 against the disorder-  
 lies, that can be done by knocking  
 down the silver fraud and the rag-baby  
 nuisance again, by the re-election of  
 Governor Bushnell and a Legislature  
 that will elect Mr. Hanna to the Senate.

The hard times which the farmers of  
 the country have had under the Wilson  
 tariff law have shown them the im-  
 portance of reducing their indebted-  
 ness as rapidly as possible. Dispatches  
 to the New York Sun (Democratic) in-  
 dicate that the farmers are making  
 use of the advance in the prices of  
 wheat, wool and other products, and  
 in devoting the money thus received to  
 the clearing of their indebtedness.  
 The Sun's dispatches from all the great  
 farming regions of the West and  
 Northwest show that the farmers  
 there are reducing their indebtedness  
 very rapidly and that the prospects are  
 that they will still further do so under  
 the good prices which they have rea-  
 son to expect for their splendid crops  
 now being harvested.

THE Hartford "Courant" calls for the  
 addition of two words to the dictionary,  
 "fathead" and "it" as a noun. A fat-  
 head is defined as a large, pompous per-  
 son, who makes up by solemn stupidity  
 for lack of intelligence. An "it" is a per-  
 son so feeble intellectually and physical-  
 ly as not to be entitled to the personal  
 pronoun. The same writer finds fault  
 with existing definition of "clump" and  
 "jays," because there are learned clumps  
 and jays, and the words can not be re-  
 stricted to doltish and country bumpkins.  
 These refinements may be in order, but  
 the growth of the English language  
 needs the brakes rather than stimulation.

The wool producers of the United  
 States are happy and the sugar trust is  
 depressed as a result of the agreement of  
 the House and Senate conferees on the  
 tariff bill. The House rates on wool were  
 restored and the sugar schedule brought  
 within a slight fraction of the House  
 bill, thus depriving the trust of any ad-  
 vantage it seemed likely to obtain under  
 the Senate rates and giving to the wool  
 producers the rates which they were  
 promised when the bill was first framed  
 for the House.

 eign remedy for all itchiness of the skin.

For earache, put a couple of drops of  
 Thomas' Electric Oil on a bit of cotton  
 and place it in the ear. The pain  
 will stop in a few moments. Simple  
 enough, isn't it?

## MACKSBURG.

Mrs. Lizzie Morris and daughter,  
 Grace, visited John Wharton and fam-  
 ily, of near Cumberland, over Sunday.

Mr. E. G. Dilley, of Seneca, O.,  
 spent Sunday with J. W. James and  
 family.

Mrs. Lizzie Lund and daughter left  
 for Oklahoma Territory last week.  
 She had been visiting relatives here  
 for the past four months.

Miss Kate Cochran returned to her  
 home at Eureka, W. Va., last week,  
 after a fortnight's visit with her sister,  
 Mrs. John Smithson.

Ben Gessel is building a dwelling  
 house between the residences of John  
 Scarberry and J. W. James.

J. T. Dillon has let the contract for  
 his new building and the work is being  
 pushed very rapidly.

John Cain, of Cairo, W. Va., spent a  
 few days last week with his family.

Mrs. Jennie Atherton spent a few  
 days with her parents, Mr. and Mrs.  
 Rott, Smithson, last week.

Another terrible rain and wind storm  
 visited us last Monday afternoon. The  
 wind did much damage and the small  
 streams were like small rivers.

Several boys went to Marietta last  
 Saturday to join the excursion to Cin-  
 cinnati. It was quite a treat for those  
 who had never been away from home.

The well on Lund drilled by McCon-  
 nell and Stephens came in dry. This  
 was near the Rothley pool.

M. H. Haddox, of Marietta, was here  
 over Sunday. He has oil interests here  
 yet.

The Misses Ward, of Cumberland,  
 are visiting their uncle, James David-  
 son, and family.

H. M. Synder and wife were at Dex-  
 ter City one day last week.

Frank Hamilton has rebuilt the rig  
 on the McMannas and is now ready for  
 drilling. He will commence this week.

C. F. Wehr has resigned his position  
 as clerk in B. F. Gramlick's store.  
 Charley is a good business man.

A. C. McConnell and S. B. Longfellow  
 were in Marietta on Wednesday.

The Alumni Association will give an  
 ice cream social in the K. of P. Hall on  
 Saturday evening. They propose to  
 add some new books to the public  
 school library. We trust all will give  
 them their hearty support. The good  
 they will do will be not only for the  
 present generation but generations to  
 come.

## A Household Necessity.

Cascarets Candy Cathartic, the most  
 wonderful medical discovery of the  
 age, pleasant and refreshing to the  
 taste, act gently and positively on kid-  
 neys, liver and bowels, cleansing the  
 entire system, dispel colds, cure head-  
 ache, fever, habitual constipation and  
 biliousness. Please buy and try a box  
 of C. C. today; 10, 25, 50 cents. Sold  
 and guaranteed to cure by all druggists.

## WATERTOWN.

Mr. H. C. Ferguson has moved his  
 family to Marietta.

Dr. Scott has moved into Mr. Fergu-  
 son's house.

The W. G. Woodford real estate was  
 sold recently and J. K. Woodford bought  
 the old home and the Martin farm; D.  
 G. Dunbar, house and lot on Church  
 street; J. L. Buchanan, 20 acres or  
 about just south of the village; Mr. Ot-  
 to Barth, the brick house and lot where  
 M. D. Woodford now lives; J. L. Schweik-  
 ert, lot in west end of village.

Mr. J. K. Woodford is making many  
 repairs on the Woodford home.

This has been the most "catching"  
 harvest that we can remember—more  
 hay spoiled than we ever knew, mostly  
 clover which is a difficult crop to cure,  
 some having sown the Mammoth or sap-  
 ling clover and which is really an im-  
 mense crop this year; we think it bet-  
 ter for plowing under than a hay crop.  
 Our crops are above an average. Wool  
 5 to 7 cents higher than last year, all  
 kinds of stock higher, of which shows  
 prosperity must be in near future.  
 "Furthermore" not less than 5000 peo-  
 ple will attend the Watertown Harvest  
 Home Festival on August 14th to offer  
 gratitude for all the good things we  
 enjoy and mingle together as a happy  
 people.

Mrs. Elmer McCrewe has returned  
 home much improved in health.

The threshing machine whistle is  
 now heard on every side.

C. N. Ellis moved a building from his  
 village home to his farm about one  
 mile out by putting the building on  
 wheels and drawing it with an engine.

Miss McLaren organized a Sunday  
 school convention in this township on  
 last Thursday evening.

Mr. J. C. Schweikert and family went  
 to Cincinnati on the excursion Sunday.

Invitations are out for the reunion of  
 company J, 148th O. V. I., to be held  
 with Mr. and Mrs. G. W. Hagerman,  
 near Watertown, on Wednesday, Aug-  
 ust 18th.

## TWO VALLEYS OF DEATH.

One in Java and Another in the  
 South of California.

The Valley of Death, or Poison valley,  
 as it is sometimes called, is an oval-  
 shaped hollow near the summit of a  
 mountain on the Island of Java. It is  
 about half a mile in width and 35 feet  
 deep, and its atmosphere is loaded with  
 carbonic acid gas. It has not been  
 thoroughly explored, says the Phila-  
 delphia Times, for, as the bones of  
 beasts, of birds and of some human be-  
 ings may be seen from its borders, even  
 the most adventurous persons do not  
 care to run the risk of breathing its air  
 for any time.

There is also a "death valley" in Inyo  
 county, Cal., between the Paramint  
 mountains and the Amargosa range.  
 It is forty miles in length by eight miles  
 in breadth, and its lowest part lies 150  
 feet below sea level. It is known that  
 every part of it is a desert, but its  
 topography and its climate have never  
 been accurately observed for the reason  
 that human beings cannot live long  
 enough in its atmosphere to obtain the  
 needed facts. In the coolest and highest  
 part the thermometer often registers  
 125 degrees Fahrenheit, and this ex-  
 cessive heat may be the cause of the  
 deadly nature of its air, but as the val-  
 ley is of volcanic origin it is surmised  
 that deadly gases may issue from the  
 cracks in the rocks. There are several  
 other places in the west where the heat  
 is so excessive that people cannot live  
 in it.

## Sailing Vessels Coming in Again.

A Baltimore paper comments on the  
 fact that the use of sailing vessels is  
 increasing. They are coming into  
 vogue again, especially for heavy ma-  
 terials which may as well be a month  
 as a week on the ocean. For a time  
 steam displaced sails, but the demand  
 for cheaper freights is supplanting  
 steam in turn.

## Klondyke Gold is Poor.

If all other warnings are useless in  
 deterring the Argonauts of '97 from  
 running helter skelter to the Yukon  
 gold fields and then starving or freez-  
 ing to death, perhaps the cold water  
 thrown upon the idea by a California  
 smelter may have its effect. This pes-  
 simistic person says the Yukon gold is  
 not the best quality article. It is a  
 deceiver, rich to the eye, but poor in  
 the melting pot when compared with  
 the California product. Instead of be-  
 ing deposited nearly pure, the Yukon  
 gold was adulterated in the original  
 formation with silver, iron, lead and  
 other base matter too poor for an as-  
 sayer to take the trouble to identify.  
 Yukon gold is not worth as much as  
 California gold by a dollar an ounce.

Now that is discouraging. After  
 paying out some hundreds of dollars of  
 good money in traveling 4,000 to 5,000  
 miles, or risking limb and life in climb-  
 ing snowy mountain peaks and float-  
 ing dangerous torrents on the short  
 cut to the digging, it would be provok-  
 ing to have an assayer turning over  
 the nuggets and dust brought out and  
 remarking in a tone of disagreement,  
 "Yukon gold. Sorry to disappoint  
 you, but the stuff is worth 5 and 6 per  
 cent less than California gold. You  
 have gone a very long way to get a  
 second class article."  
 But was it merely California jeal-  
 ousy?—[Wheeling Register.]
